BONUSES & REWARDS CONDITIONS

1. WAGERING REQUIREMENT

1.1. At its core, the bonus is a deal between the website and the player. SlotV provides the player with funds for the game, and the player is obliged to make bets on the amount specified by the bonus terms, before claiming the payment of funds. Such a deal can be completed in four ways:

- fulfilling the cash cycle specified in the bonus terms
- achievement of the bonus threshold specified in s.p.6.6
- the player refuses wagering according to s.p.6.10
- the player has received payment, which he ordered before the moment the bonus appeared on his account

1.2. Any player in his sole discretion may refuse to accept all or any individual bonuses at SlotV, by contacting Customer Support (contact email address support@slotv.com, writing to the online chat or by himself in the player's profile. The exception is the cases when the wagering of the current bonus has already started.

1.4. At any time at the gaming account there can be only one active bonus.

1.5. If there is a bonus, the player's balance in the game is a single sum. Wagering of a bonus is for real money first, while the win is credited to the bonus account, and so it happens until the bonus is wagered. After bonus wagering, the sum goes to the real account. Having a bonus on the account, the user can withdraw only those funds that are on the real account, with the bonus amount being written off.

1.6. Any bonus is automatically deducted when reaching zero balance. In such case the bonus is considered to be completely lost, and the obligations imposed upon the player by having the bonus - completely dismissed.

1.7. To wager a bonus, you must make a bet amount corresponding to its conditions. In most cases, if the terms of the bonus do not specify otherwise, you need to make the sum of bets equal to the wager multiplied by bonus amount plus deposit. That is, the bonus wagering formula looks like this: $\text{wagering amount} = \text{wager} * (\text{bonus size} + \text{deposit})$. In the case of gifts with free spins, only the bonus amount received when winning from free spins is liable to wager.

1.8. Bonus wagering requirements may vary from game to game.

Below, you will see a list including, but not limited to, the following actions that can be deemed as abuse ("abuse" is defined as taking part in the bonus without risking your own funds) of the offer:

- Using more than one gaming account;
- Cooperation or collusion;
- Games with equal, zero or low margin;
- Complete or half-guard games;
- Masking/concealing IP-addresses or using VPN;
- Making the maximum allowable bet in casino games with an active bonus
- Playing with an active bonus in disqualified/excluded games;
- Manipulating software, the use of loopholes or other technical means of abuse or other behavior related to intentional fraud;
- Playing games with an active bonus to accumulate the value, converting the bonus and then extracting the accumulated value, for instance, by delaying the bonus round in the game;
- Evidence of a series of conflicting bets made by a client or a group of related customers on the same betting market with the ultimate goal of profiting from them, regardless of the final result or any other type of abuse;
- Using a bonus wagering strategy, including but not limited to where you increase the bonus balance by placing bets on high volatility games, then you wager the remaining bonus amount by changing the wagering slot games to lower volatility games.

1.10. The welcome offer can only be received once per person, household, IP address (including shared networks), device and/or credit/debit card number or any other deposit method used. We reserve the right to close your account and confiscate any existing funds if evidence of bonus abuse/fraud is found.

1.11. The Offers provided by the SlotV Casino are limited to one Offer per Player (one Offer per household address, shared computer or shared IP address, email address, telephone number, payment method). Players using a shared computer can only have one Account per computer or IP address. In case of Accounts found to be sharing the details previously mentioned, the SlotV Casino reserves the right to confiscate the funds on the Accounts and/or block the Accounts. The original deposit made by the Player if applicable will not be confiscated and only the Bonus and/or winnings from the Bonus will be confiscated.

1.12. For the no deposit bonuses there is a limit to the maximum amount of winning from them, equal to ten times the size of the no deposit bonus. All other wins from no deposit bonuses are written off without any compensation.

1.13. A player can refuse to continue-bonus wagering. The refusal can be done in the player's profile. Before the refusal, the system will calculate the amount to be returned to the player, and it will offer to agree to it or to continue wagering. Compliance with the proposed amount may not be later reversed or disputed. Since the refusal from the bonus is essentially the refusal from the deal on the part of the player, it entails the loss of part of the funds by the player.

1.14. With an active bonus, it is technically impossible to place bets over 5 EUR.

1.15. Bonus money rounds do not qualify for the tournaments.

1.16. If the player has postponed the round in which the bet was made with an active wager, and completed it when the bonus has already been wagered/debited/cancelled, the winnings from such rounds will be automatically
